The Honorable Governor Newsom
Governor
1021 O St, Suite 9000
Sacramento, CA, 95814

Dear Governor Gavin Newsom,

My name is Ivanka and I am in 6th grade and go to XXXXXXXXXX school in San Jose California. I am writing to express my concern about the issue of pollution.

This issue is important because it affects people and animals in our community. It leads to animals eating trash in the ocean to people suffocating, stunting growth, and dying from oil pollution. I discovered this issue when me and my father were driving I saw some smoke coming out of a building. And when I went to the beach I saw trash in the ocean and the sand. I believe that addressing this problem will make a meaningful difference so neither will animals or humans suffocate.

I respectfully urge you to vote yes on AB1243. Doing so would benefit people and animals affected by pollution. This is possible since the bill can help fund a beach cleanup and other efforts.

I would greatly appreciate a response to understand your position and what steps you plan to take regarding this issue. Thank you very much for your time and for considering the views of young people in our community.

Sincerely,

Ivanka XXXXXXXX
